In regards to claims 1-20 and 31-33 see Examiners reasons for allowance in the office action mailed on August 16, 2004.

In regards to claim 21 the prior art of record does not disclose nor fairly suggest a socket formed in said pivot member, the socket having an electrical connector; a viewing module releasably connected to said socket in said pivot member, wherein said socket rigidly attaches the viewing module to the camera when the socket is either releasable connected directly to the viewing module or releasable connected to the viewing module through a rigid extension module in combination with all of the other limitations of claim 21.

Claims 22-30 depend from claim 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
